I completed my Fine arts education in 2008 by scoring my masters from Indian university. Working as an art educator has allowed me to offer visual art training to youngsters and also sponsor my art expressions efficiently. I work with mostly oil and acrylic mediums on figurative art styles. Having realized the wealth of ancient Indian Vedanta and philosophies, I create art that depicts appreciation for our ancient history and culture. The vedantic philosophy and rituals guide mankind to become one with the universe. Through my art, I intend to display the message of peace, inner joy, power of silence, unison and harmony of the mind, body and soul.

I represent art actively at National and International platforms. I paint figurative art that conveys spiritual realms and cultural significance of human society. My art is very much inspired by the rich Indian heritage of Vedanta and science of human consciousness. Art must create healing and positive aspirations for this ecosystem and mankind. The world needs people with powerful consciousness; people with caring & kind attitudes and lives should be devoted / invested in discovering these powers already existing within ourselves.

My art enchants the silence within and displays the science of self-discovery, spiritual wealth, universal energies and the ancient law of universe. The alignment between this infinite universe and mankind needs to initiate within us and it should continue to be nurtured within us with spiritual guidance, positive aspirations, ancient rituals and a strong longing for wisdom.

I paint figures that are inspired from the Indian ancient yogic practices and observation of self-discovery. Communicating the 'Dhyana' state (state of meditation) and it's joyous experiences is an experiential journey. It's a process of alignment of self with the universe.

Some of my pieces are as follows:

- 1) *Magic & Manifestations (series of 3 Pieces) ~ An Inward Vision*
- 2) *Magic & Manifestations (series of 3 Pieces) ~ A Meditative Enchantment*
- 3) *Magic & Manifestations (series of 5 Pieces) ~ The Cosmic Connection*
- 4) *The Subconscious Quietude*
- 5) *The divine presence*
- 6) *The Creatrix~ Divine Mother*
- 7) *The Silent Remonstraton*
